话题分析

写关于观点类的文章

本单元我们阅读关于因特网对我们生活影响文章，以对话的形式呈现，要求我们学习“观点”+“事例支撑”这种写作模式，本单元写作要求我们写出因特网对我们生活正面和负面的影响，学会这种写作模式，也要运用本单元的目标言语展开写作。写作时要注意一下几个方面：

一、开篇要明确主题与立场。若有正反观点，可在开头暗示（如 both...and...）；若侧重单方面，直接表明态度。

二、中间：分点论证，结合例子。正面 / 积极影响论证。负面 / 消极影响论证观点与例子强关联。避免结构混乱，缺乏层次。一般先写正面观点。再写负面影响，最后总结。

三、结尾：总结观点或提出建议。

写作步骤

一、开头：明确主题与立场

直接点明主题：用一句话概括讨论的核心话题，可结合现象或问题。

二、中间：分点论证，结合例子

1. 正面 / 积极影响论证

(1)结构：观点句 + 具体例子 + 细节说明

(2)例：

观点：The internet helps us develop our interests.

例子：I love drawing and watch online lessons, starting an art blog.（用个人经历说明兴趣发展）

(3)技巧：使用“for example /take...as an example”引出例子，用“also/moreover”连接多个观点。

2. 负面 / 消极影响论证

结构：问题句 + 实例 + 后果说明。例：

问题：The internet makes teenagers less active.

例子：Classmates prefer games at home, feeling tired. 用身边现象说明后果

技巧：用“however /another problem is that”转折，增强对比

三、结尾：总结观点或提出建议

总结式结尾：重申核心观点，强调影响或趋势。例：

So, while the Internet is useful, we should use it wisely.

总结利弊，呼吁合理使用

展望式结尾：结合前文观点，给出未来展望。

例：Yes, it will. We've already started doing some of these things!(课文)

肯定未来可能性，呼应前文例子

Part 1

The beginning (clearly express your idea)

Part 2

The body (use examples to illustrate the ideas)

Part 3

The ending (Summarize viewpoints or provide suggestions)

【实战演练一】

写出因特网的优点和缺点，用一些具体实例支持你的观点。

The Internet has brought great changes to our life. It has both good and bad effects on teenagers. On the positive side, it helps us develop our interests. For example, I love drawing, and I often watch drawing lessons on the Internet. By following these lessons, I've improved a lot and even started my own art blog. Also, the Internet allows us to stay in touch with friends. My best friend moved to another city last year, but we still chat every day on WeChat, sharing funny stories and photos of our daily lives. Moreover, it's a great tool for learning. During the winter holiday, I used online platforms to study English grammar. The videos and exercises there made learning much easier.

However, there are negative effects too. Many teenagers become less active in real life because of the Internet. They prefer playing mobile games at home instead of playing basketball or running outside. As a result, they often feel tired and weak. Another problem is that some teenagers spend too much time on social media. My neighbor always posts short videos and checks comments every few minutes. He sometimes stays up late doing this, and then he can't focus in class the next day. So, while the Internet is useful, we should use it wisely.

Our class discussed whether it's good for students to study online at home. Here are two different groups of ideas about it.

Some students think it provides different kinds of online courses and opens a new world to them. It also saves time and helps them learn new skills. However, other students hold that its disadvantages are also quite clear. For example, some students give up their spare time to play computer games, which harms their eyes, and others don't study hard and have fallen behind others in their schoolwork.

I think studying online is a good choice, because we are sure to make great process in this new way of learning if we try to keep a balance between online study and playing.

AI and Our Life

The fast development of Artificial Intelligence (AI) has changed our lives a lot.

AI has many good sides. It makes our life easier. For example, smart speakers can play music and tell us the weather when we ask. AI can also help us solve problems, like finding answers to math questions quickly.

But AI also has some bad sides. Some people rely on AI too much. They don't want to think by themselves. Also, AI may take some jobs from people.

In my opinion, we should use AI well. We can let AI help us, but we still need to think on our own. We need to use it as a tool to enhance our lives and skills, instead of becoming overly dependent on it. We should make sure AI works for us, not controls us.

Advantages and disadvantages of the Internet

In the modern world, the Internet has come into our life. Lots of students use the Internet as a tool for their studies. They look up new words and learn history or geography on the Internet. They also use the Internet to read news or send emails. The internet not only helps them increase their knowledge but also helps them make friends.

But every coin has two sides. Some students spend too much time playing online games and chatting with friends. They are not interested in their studies. At the same time, they become weaker and weaker in body.

In a word, the Internet brings us not only a lot of advantages but also problems. As students, we should make good use of the Internet.
