When our group arrived in Gary, 21, I found the town was different from where I lived. I never imagined there were few stores or restaurants there and most had closed. So it would be very 22 if you could find a place to buy food or drinks. Many houses had broken doors or windows. My job was to 23 them. After the visit, I truly understand what Amy said, "I didn't think much for people around me. But now I know my small acts can make a difference..."

十、阅读理解

In America, when people say "man's best friend", they don't mean another person. Instead, they are talking about a lovely animal: a dog! These words show the friendship between people and animals. Dogs and other pets can give joy to people's lives. Some people think of their pets as their children. A few even leave all their money to their pets when they die!

Animals can help people, too. Dogs can be taught to be the "eyes" for a blind person or "ears" for a deaf person. Scientists have found that pets help people live longer! They make people happier, too. Because of that, animals are brought into hospitals for "patients".

Americans hold "Be Kind to Animals Week" the first week of May. Pet shows are held during the week. Even if you don't live in America, you, too, can do this. How? First, think about how animals make your life richer. If you have a pet, take more time this week to play with it. Remember to give it delicious food.

If you don't have a pet, be kind to animals around you. For example, if you see a street dog, don't kick it or throw things at it. Instead, just leave it alone, or better yet, make friends with it. If others around you do bad things to an animal, try to speak up. As people, we must protect animals who can't speak for themselves.

十、阅读理解

In America, when people say "man's best friend", they don't mean another person. Instead, they are talking about a lovely animal: a dog! These words show the friendship between people and animals. Dogs and other pets can give joy to people's lives. Some people think of their pets as their children. A few even leave all their money to their pets when they die!

Animals can help people, too. Dogs can be taught to be the "eyes" for a blind person or "ears" for a deaf person. Scientists have found that pets help people live longer! They make people happier, too. Because of that, animals are brought into hospitals for "patients".

Americans hold "Be Kind to Animals Week" the first week of May. Pet shows are held during the week. Even if you don't live in America, you, too, can do this. How? First, think about how animals make your life richer. If you have a pet, take more time this week to play with it. Remember to give it delicious food.

If you don't have a pet, be kind to animals around you. For example, if you see a street dog, don't kick it or throw things at it. Instead, just leave it alone, or better yet, make friends with it. If others around you do bad things to an animal, try to speak up. As people, we must protect animals who can't speak for themselves.
