

(时间: 90 分钟, 满分: 100 分)

一、单项选择 (本大题共 10 小题, 每小题 1 分, 满分 10 分)

1. —Why didn't you come to my birthday party yesterday?

—Sorry, I was so busy that I _____ forgot it.

A. suddenly B. completely C. recently D. quietly

2. Millions of people _____ cancer from all over the world every year and more and more people _____ car accidents because of the heavy traffic.

A. die from; die upon B. die out; die from C. die of; die from D. die upon; die of

3. —Hey, have you seen the latest short videos on Douyin?

—Sure! I often spend my free time _____ them.

A. watch B. watching C. to watch D. watched

4. There isn't _____ paper in the box. Will you go and get _____ for me?

A. any, some B. any, any C. some, some D. some, any

5. The new work is so difficult that _____ can finish it.

A. everybody B. nobody C. anybody D. somebody

6. —Would you like _____ books to read?

—Oh, great! I'd like to read _____. It can make the waiting time more enjoyable.

A. some; something interesting B. some; interesting something

C. any; something interesting D. any; interesting something

7. —What do you think of your teacher?

—He is perfect and plays an important role _____ helping us in our school life.

A. on B. up C. in D. with

8. —I need some energy for _____ afternoon.

—You can have a big lunch now.

A. the all B. whole the C. all D. the whole

9. —I think friends should be different _____ each other.

—I don't agree (同意) with you. I think friends should be similar _____ each other.

A. from; to B. to; in C. as; to D. as; from

10. Can you give me _____ on it?

A. some pieces of advices B. any piece of advices C. any piece of advice
D. some pieces of advice

二、完形填空 (本大题共 10 小题, 每小题 1 分, 满分 10 分)

阅读下面短文，从每小题 A、B、C、D 中选出一个能填入文章中相应空白处的最佳答案。

In the fast-changing world of technology, Liang Wenfeng is a rising star. He founded DeepSeek, an AI company that has made a great 11 to the world.

Liang Wenfeng was born in the 1980s in a small town in Guangdong. From a young age, he showed great 12 in maths and computers. He studied hard and got into Zhejiang University, where he got both his bachelor's and master's degrees (学位) in 13 science.

After finishing school, Liang Wenfeng began working in banking and money-related jobs. He started an investment team that used AI to help with their work. This made him famous. However, he was not satisfied with this success. He realized that AI could be helpful in many ways and decided to make a big 14.

In 2023, he 15 DeepSeek. He put a lot of effort (努力) and money into 16 AI technologies. DeepSeek's goal is to 17 AI models that can compete with the best in the world. And it has achieved great success. Its AI models are great at understanding and using language. They can 18 different kinds of questions, help with writing, and even write code (代码). What's more, these models don't cost much, which makes them very 19.

DeepSeek's 20 have made Liang Wenfeng respected in the world tech community. But he is still low-key. Though very successful, he focuses on his work and dreams of making AI good for everyone. His story shows that with hard work, talent and courage to take risks, great things can be done in technology.

| 20. A. invitation | B. achievements | C. improvement | D. advantages |

三、阅读 (共两节, 满分 35 分)

第一节 阅读理解 (本大题共 15 小题, 每小题 2 分, 满分 30 分)

A

Huang Xuhua, a great Chinese scientist, passed away on February 6th, 2025. But his great deeds and strong spirit will always stay in our hearts and keep lighting up China's way forward.

Huang Xuhua was born in Guangdong Province in 1926. When he was young, he saw the hard times of his country under foreign attacks (侵略). These sad memories made him study hard. He made a promise to make the country strong with his knowledge.

In the 1950s, when China started to develop nuclear submarines (核潜艇), it was a very difficult job. Huang Xuhua was not afraid and stood up bravely. At that time, there was not much advanced technology or many resources. It was like climbing a very steep mountain. But he and his team took on this challenge. To keep the project secret, they stopped contacting (联系) the outside world, even their families. Huang Xuhua left his hometown for many years.

During the design process, they met a lot of problems. For example, designing a nuclear reactor (核反应堆) was really hard. They couldn't get help from foreign experts, so they could only depend on their own research. They used simple tools like abacuses and slide rules (算盘和滑尺) to calculate and do experiments with great effort. Another important problem was to make sure the submarine was stable underwater. After many simulations and tests, they gradually overcame these problems.

Finally, in the 1970s, China's first nuclear submarine was built and tested successfully. This made China one of the few countries that had this ability. Huang Xuhua didn't stop after this big success. He went on to help with the development of submarine technology. His hard work and devotion won him many honors, including the "Medal of the Republic" ("共和国勋章") in 2019.

Now, when we think of him, we know that his life can inspire us a lot. We, especially the young people, should learn from his spirit. Let's take on the responsibility, face challenges bravely, and work hard to make China stronger. In this way, his spirit will live on forever.

21. Huang Xuhua decided to study hard to make the country strong because of the following EXCEPT _____.

- A. He saw the hard times of his country under foreign attacks.
- B. He wanted to develop nuclear submarines.
- C. He had sad memories of his country's difficulties.
- D. He made a promise to use his knowledge to help the country.

22. In the 1950s, why did Huang Xuhua and his team didn't contact with the outside world?
- A. Because they didn't like communicating with others.
- B. Because they wanted to focus on their personal lives.
- C. To keep the secret of the nuclear submarine project.
- D. To avoid the influence of outside opinions on their research.
23. What can we infer (推断) about Huang Xuhua's team during the project?
- A. They depended heavily on foreign technology.
- B. They prioritized (优先) communication with their families.
- C. They used basic tools due to limited resources.
- D. They gave up after facing initial (最初的) difficulties.
24. Huang Xuhua's winning the "Medal of the Republic" in 2019 shows that _____.
- A. he was the only scientist who made great contributions (贡献) in China
- B. his achievements and dedication (奉献) were highly recognized
- C. the government wanted to give rewards to all scientists
- D. it was easy for him to get such a high honor
25. The writer wants to tell us that _____.
- A. Huang Xuhua was a great scientist. B. Huang Xuhua won many honors.
- C. Huang Xuhua was brave. D. Huang Xuhua's spirit should inspire us.

B

①Helen Thayer, one of the greatest explorers of the 20th century, loves challenges. She says, "I like to see what's on the other side of the hill." She has been almost everywhere to do that.

②Helen Thayer was born in New Zealand. She has been exploring the world most of her life. Since childhood, she has traveled widely in very cold weather and across some unusual lands. At the age of 50, she became the first woman to travel alone to the North Pole. Only with her dog Charlie, she lived through very cold weather and met polar bears. She also canoed (划独木舟) 2,200 miles down the Amazon, and climbed several mountains.

③Helen Thayer has never let the age stop her. She and her husband, Bill, had a lifelong dream for their 40th wedding anniversary. They walked 1,600 miles in terrible heat across the Gobi Desert. There they met Mongolian nomads (游牧民) and learned about their culture.

④To celebrate their 50 years of marriage, the Thayers walked almost 4,000 miles across the Sahara Desert to study the customs of the people who lived there. Now they are in their eighties, and they still keep planning for their future trips.

⑤Thayer has brought back many stories to share with people around the world. She hopes to encourage people to follow their examples and realize their dreams. What is her advice? Set goals, make plans and never give up.

26. What can we know about Helen Thayer?

- A. She has never been to the Amazon.
- B. She visited the North Pole with her husband.
- C. She was the first woman to travel alone to the North Pole.
- D. She seldom shares stories of her traveling experiences with people.

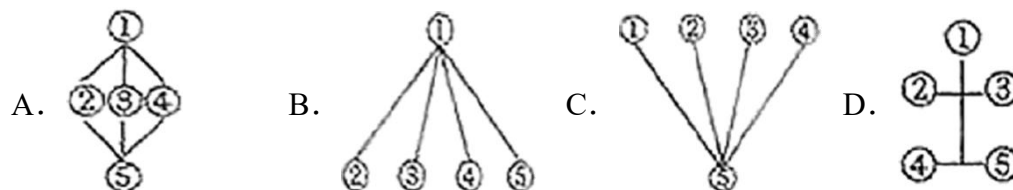

27. The Thayers met Mongolian nomads when they _____.

- A. were in New Zealand
- B. canoed down the Amazon
- C. crossed the Gobi Desert
- D. climbed the mountains

28. The Thuyers _____ to celebrate their 50 years of marriage.

- A. walked across the Sahara Desert
- B. visited the North Pole
- C. traveled across the Gobi Desert
- D. took a trip to Mongolia

29. Which of the following shows the structure (结构) of the text?

30. The best title for the passage can be _____.

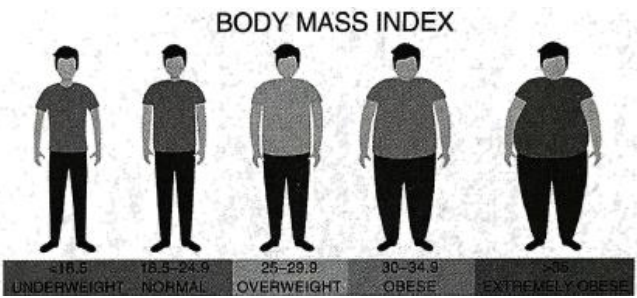

- A. A Trip into the Desert
- B. Helen Thayer's Wild Dreams
- C. The Love Story of the Thayers
- D. Helen Thayer, a Great Explorer

C

It is said that about 41.1% of the Chinese men and 27.7% of the Chinese women are overweight or obese (肥胖的). On 12th March, 2025, National Health Commission of the PRC announced that 2025 is the year of weight management.

How do you know whether you are overweight? Work out your Body Mass Index (BMI) (身体质量指数).

$BMI = \text{Weight (kg)} / \text{Height}^2(\text{m})$

	
Problems caused by obesity	Ways to control your weight
*Heart problems *High blood pressure *High blood sugar *Cancer (癌症)	*Drink a lot of water. *Eat more fruit and vegetables. *Exercise a lot. *Keep an eye on your weight. *Stay away from food with high sugar or fat. *Relax and have enough sleep.
▲	
*Eating too much *Some kinds of medicine *Poor sleep *Family history *Too much pressure	

31. What percent of the Chinese men are overweight or obese?
 A. About 41.1%. B. About 27.7%. C. About 13.4%. D. About 68.8%.
32. Mark's BMI is 23, so what can we say?
 A. He is thin. B. He is normal. C. He is overweight. D. He is obese.
33. Which of the following can be put in ▲?
 A. Reasons for old habits. B. Reasons for obesity.
 C. How to lose weight. D. Ways to stay healthy.
34. Which is NOT in the list of "Ways to control your weight"?
 A. Eat healthy food. B. Drink enough water.
 C. Have enough sleep. D. Wear comfortable clothes.
35. What does the text want to tell us?
 A. We should save water and food. B. We should go to a doctor often.
 C. We should take obesity seriously. D. We should do sports every day.

第二节 阅读还原（本大题共 5 小题，每小题 1 分，满分 5 分）

阅读短文及文后选项，选出可以填入空白处的最佳选项，把答案写在答题卷相应的空格中。

Encyclopaedia Britannica (《大英百科全书》) used to be the king of encyclopaedias. It hopes to become the most important encyclopaedia again.

_____ 36 _____ It moved to Chicago in 1935. In 1990, the company sold more than 100,000 sets of books. _____ 37 _____ Book sales dropped during the time of the Internet because people stopped getting information only from books. _____ 38 _____

Some online encyclopedias started in the early 21st century. It was the beginning of the end of *Encyclopaedia Britannica* books. Several years ago, the company stopped publishing the books. It put the whole encyclopaedia on the Internet. _____ 39 _____ One reason is that some online encyclopedias have millions of articles, but *Britannica* has only 106,000. About half of *Britannica*'s articles are free while almost all of the articles on other online encyclopedias are free.

Still, some readers believe that *Britannica*'s articles are more trustworthy (值得信任的). _____ 40 _____ They make sure the articles are correct. The president of *Britannica* has a plan. He wants to offer all of the encyclopaedia online for free. The company hopes more people will read it.

- A. This was *Britannica*'s best year.
- B. They began getting it online as well.
- C. *Britannica* began in Scotland nearly 250 years ago.
- D. It's said that each *Britannica* article is checked by experts.
- E. Sadly, *Britannica* online is not as popular as some other online encyclopedias.

四、任务型阅读 (本大题共 4 小题, 第 41~43 每小题 2 分, 第 44 题 4 分; 满分 10 分)

阅读短文, 然后根据内容回答问题。

The Wright brothers and the first plane

In 12 seconds in the year 1903, two young Americans changed the world forever. That was the length of the first successful flight (飞行) of Orville Wright and Wilbur Wright's plane.

Wilbur was born in 1867 and Orville in 1871. The Wright brothers developed a strong interest in flight from early childhood. They taught themselves maths and engineering. They started their flying experiments with big kites and gliders (滑翔机) and finally decided to make their own plane. The two brothers worked very hard to make a small engine and a propeller (螺旋桨) for their plane.

Their first plane weighed 340 kilograms. Its wings were 12 metres wide. On 17 December, 1903, Orville sat in the plane and made the first successful flight at Kitty Hawk, North Carolina. His flight lasted for only 12 seconds and only covered 37 metres, but this was the first time when human beings successfully sent something heavier than the air into the sky with powered flight. Wilbur also flew the

plane on the same day. In the last flight of the day, Wilbur flew for 59 seconds and covered a distance of 260 metres.

The Wright brothers improved their plane, and by 1909, it could fly for 32 kilometres. The Wright brothers are surely among the most important inventors of the 20th century.

41. What were the Wright brothers very interested in from early childhood?

42. When did the first successful flight take place?

43. How long did Orville Wright and Wilbur Wright's first successful flight last?

44. How do you think the invention of the first plane? Why do you think so? Write 30 words or more.

五、短文填空 (本大题共 10 小题, 每小题 1 分, 满分 10 分)

根据短文内容, 用所给单词的适当形式填空, 未提供单词的根据上下文填入适当的词。

Lang Lang was born on June 14, 1982 in Shenyang, Liaoning Province. He is one of the most famous 45 (music) in the world. He is popular because of his intelligence and love for music.

When Lang Lang was two and a half years old, he liked a famous cartoon, Tom and Jerry. One day, he watched Tom playing the piano on TV, and then he became interested in it.
