【答案】例文

Dear classmates,

Today, I'd like to talk about an important topic: "Smartphone, Tool or Toy?"

Recently, our class conducted a survey on the use of smartphones. Here is the result. 28 students use smartphones to play games and 10 students use smartphones to watch short videos. Only 12 students use smartphones to search for information and study.

Using smartphones has both advantages and disadvantages. On the positive side, smartphones can be very helpful for learning. They provide easy access to a vast amount of information and educational resources. However, there are also some drawbacks. Excessive use of smartphones can waste a lot of time and money. Moreover, it can lead to addiction and distract students from their studies.

In my opinion, students should use smartphones wisely. They should set a time limit for non-educational activities and focus more on using smartphones as a tool for learning.

Thanks a lot for your listening!

The Internet has brought great changes to our life. It has both good and bad effects on teenagers. On the positive side, it helps us develop our interests. For example, I love drawing, and I often watch drawing lessons on the Internet. By following these lessons, I've improved a lot and even started my own art blog. Also, the Internet allows us to stay in touch with friends. My best friend moved to another city last year, but we still chat every day on WeChat, sharing funny stories and photos of our daily lives. Moreover, it's a great tool for learning. During the winter holiday, I used online platforms to study English grammar. The videos and exercises there made learning much easier.

However, there are negative effects too. Many teenagers become less active in real life because of the Internet. They prefer playing mobile games at home instead of playing basketball or running outside. As a result, they often feel tired and weak. Another problem is that some teenagers spend too much time on social media. My neighbor always posts short videos and checks comments every few minutes. He sometimes stays up late doing this, and then he can't focus in class the next day. So, while the Internet is useful, we should use it wisely.

【范文】

Dear Mr. Li and Mrs. Li,

How are you? I hope you are well. I'm writing to thank you for taking such good care of me during my stay in Beijing. Now that I'm back in London, I keep thinking about all the great times we had together.

It was so kind of you to welcome me into your home. I am grateful that you showed me so much of Beijing—like the day we visited the Great Wall. I still remember how you told me stories about its history while we walked. It has been a fantastic experience to learn about Chinese culture, too, especially when we made dumplings together. That's the thing I enjoyed most—sharing meals and laughing with you all.

Since I returned to London, I have told my friends all about my trip. They were amazed by the photos of the Forbidden City and wanted to know more about Chinese traditions. The thing I miss most is your home-cooked noodles—they were delicious!

I do hope that one day you can visit London. I would love to show you around my city, just like you did for me. Keep in touch!

Best wishes to you all,

Yours,

Frank

Unit 6 Wisdom counts

一、单元写作任务：写一位智者的故事。（古代智者故事）

本单元以“Wisdom counts”为主题，归属于“人与社会”主题语境范畴，聚焦“智慧在历史与生活中的展现及价值”子主题。借由对古代故事的研读、对智慧策略的剖析来掌握描述古代战争、人物行为及智慧决策的词汇和句型。完成对智慧故事的收集和输出。故事写作整体注意事项

1.围绕主题：所有情节、人物等元素都要服务于核心主题。像特洛伊木马计故事围绕“智取特洛伊城”展开，清晰传递关键内容。

2.逻辑连贯：情节推进、人物行为等需符合逻辑。比如希腊士兵造木马、藏入其中，特洛伊人因看到“希腊人离开”而拉木马进城，一系列行为环环相扣。

3.塑造人物：通过行动、感受等展现人物特点。文中希腊士兵的“疲惫，思乡、机智勇敢”，特洛伊人“庆祝胜利的喜悦到被俘的悲伤”，让读者能感知角色。

故事各部分写作要点

（一）故事开头（Part 1: Setting the scene）

要素清晰：

明确交代时间：another hot and dry summer

地点：围绕特洛伊城战争场景

人物：希腊士兵，呈现其状态“tired of war, missed home”，让读者快速进入情境，知晓故事“舞台”和“角色”。

设置场景：这里用“十年战争仍未攻克，士兵疲惫思乡，能做什么？”，既营造出战争的压抑、胶着氛围，又抛出悬念，引发读者好奇后续如何解决困境。

（二）故事发展（Part 2: Developing the story）

按序推进：严格遵循时间顺序（that day - the middle of the night - the next morning - that night - at midnight），把“造木马藏人 - 木马放城门、大部队佯装离开 - 特洛伊人拉木马进城庆祝 - 希腊士兵等待时机行动”等事件依次展开，使情节有条理。

细节丰富：添加具体行为（built a huge wooden horse; hid inside it; pulled the horse into the city 等）、环境反馈（听到特洛伊人呼喊）、人物活动（drank and danced），让故事生动、真实，读者能跟随情节“身临其境”。

（三）故事结尾（Part 3: Ending the story）

收束情节：让事件有明确结果（希腊人占领特洛伊，特洛伊首领被俘），解决开头悬念（通过木马计攻克城市，士兵可回家），给故事画上句号。

展现人物情感：写出不同人物结局感受（特洛伊首领 crying，希腊人 happy），强化故事感染力，也让读者体会情节带来的情绪冲击，深化对故事的印象。

三、范文背诵

1 词数 80-100，开头已为你写好，不计入总词数；

2.短文须包括所给内容信息。可以适当增加细节，以使行文连贯。

【答案】例文

Cao Chong weighs an elephant

The Chinese people have told this story for many years. It is a story about Cao Cao's son, a clever boy named Cao Chong.

One day, Sun Quan sent Cao Cao a huge elephant. Cao Cao was quite pleased and wanted to know its weight. However, no one knew how to solve this problem. Just then, Cao Chong, Cao Cao's little son, got an idea. He asked some soldiers to lead the elephant onto a boat. The boat went lower into the water when the elephant walked onto it. He drew a line on the side of the boat to mark how low it went. Then Cao Chong let the soldiers take the elephant off the boat and fill the boats with rocks until water reached the line on the boat. Then Cao Chong weighed the rocks which were added into the boat. That was the weight of the elephant. Everyone considered Cao Chong a genius.

From this story, we know that when we face difficult problems, we shouldn't give up and deal with them from another view.

三、范文背诵

Doing more practice is an effective way to help us remember what we've learned.

Doing more practice means we repeat activities related to the knowledge we need to remember—like doing exercises, having conversations or solving small problems. For example, if we want to remember English grammar rules, we can do more grammar exercises; if we need to remember math formulas, we can solve more math problems using those formulas.

When we practice again and again, our brains can "store" the knowledge more deeply. If we only learn something once, we might forget it soon. But practice helps us review the knowledge and use it in real situations. This makes the memory stronger, so we can recall it easily when we need it.

To use this skill well, first, choose simple practice tasks at the beginning—don't pick things that are too hard. Then, practice a little every day. For example, spend 10 minutes practicing English dialogues each morning. Finally, check your mistakes after practice and fix them. This way, your practice will be more useful, and you'll remember things better!

【范文赏析】

Dear Andy,

With the improvement of our living standard, more and more people like to raise dogs as their pets in the living areas or settlements. Recently, according to this, our class have held a discussion on whether people should raise these dogs. Different opinions are as follows:

Those who are for it think that people should have the right to raise dogs as their pets. First, dogs can not only help their masters watch out houses ,but also bring them happiness and pleasure. Second, by keeping dogs, the only child and the old will not feel lonely. Third, we can learn to care for the lives.

However, quite a large number of the people think dogs should not be raised as pets in the living areas. For one reason, they make so much noise, especially at night, which have a bad effect on people's rest. Second, they are dirty and they often make the environment dirty. At last, sometimes, some dog may even bite people. People are often feeling frightened whenever they meet them.

In my opinion,I am strongly against raising dogs in the public places such as living areas and settlements. For the sake of people's safety and living environment,raising dogs as pets should be forbidden
